How to Modify Your Account Information

01 How to Modify Your Account Information

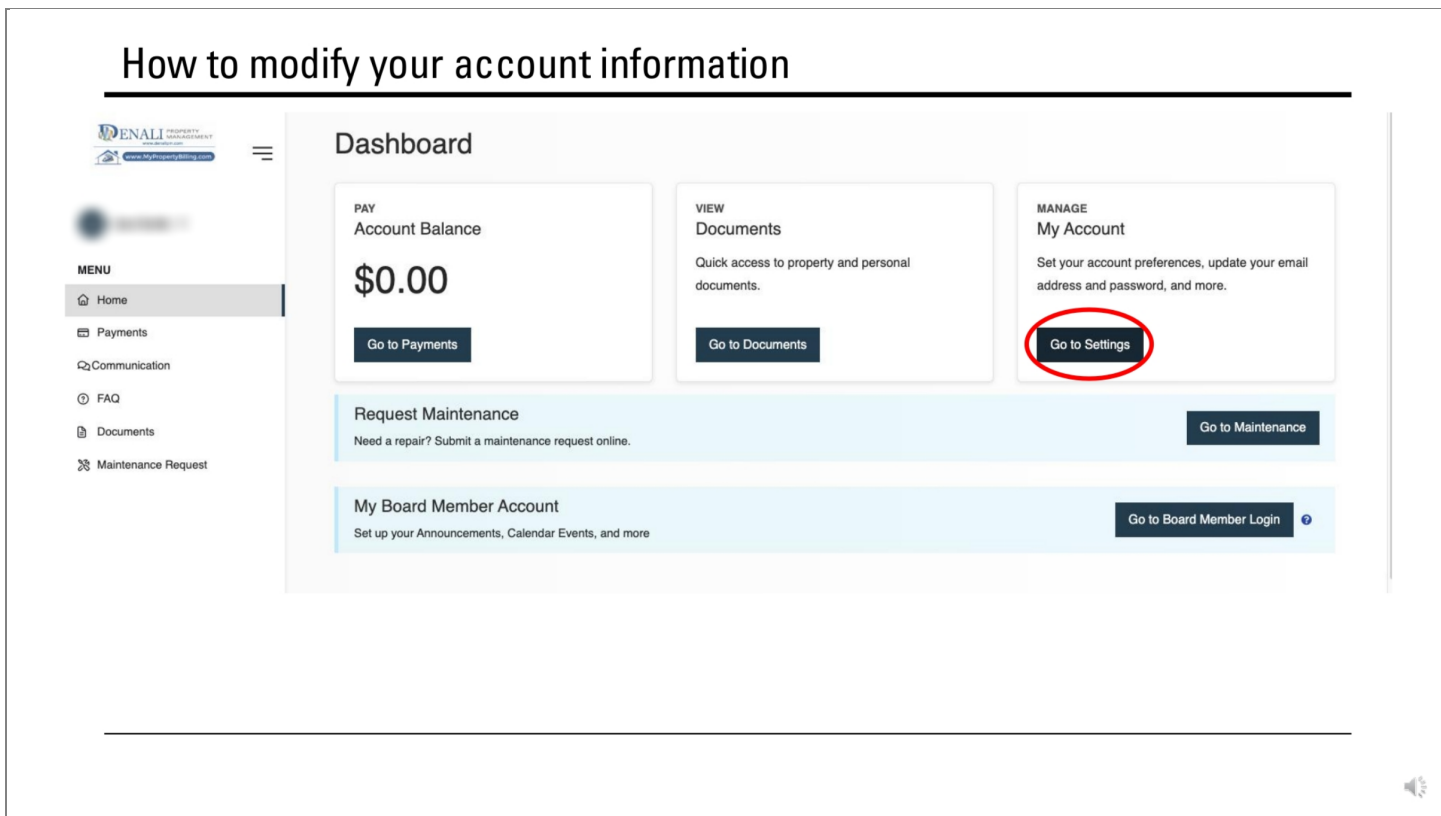

We'll demonstrate how to navigate to the settings section and update various personal details, ensuring your profile is always current and accurate.

HOW TO MODIFY YOUR ACCOUNT INFORMATION

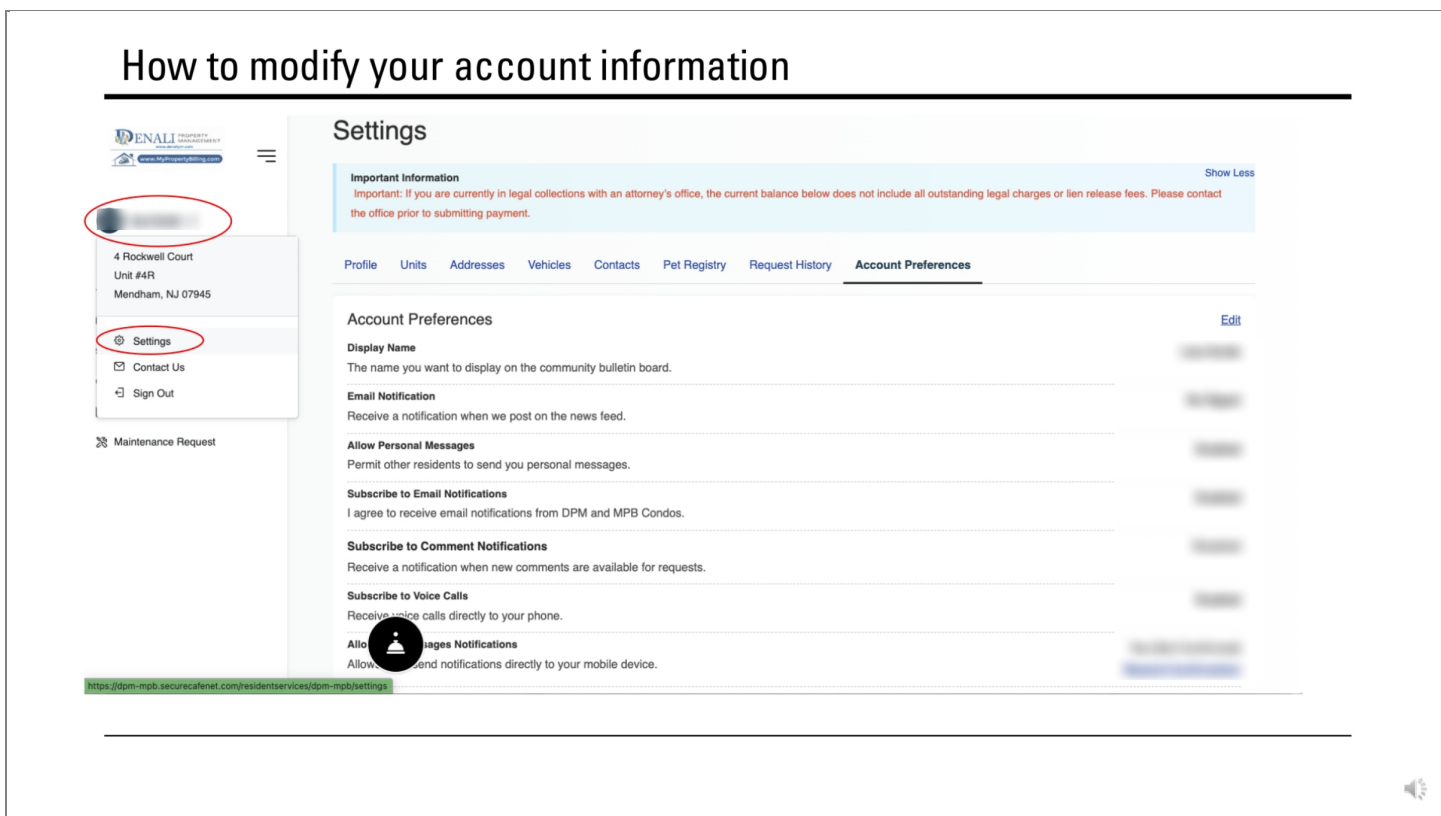

02 Accessing Account Settings from the Dashboard

To begin modifying your account information, navigate to the dashboard. From here, you'll find a clear option labeled 'Go to Settings'. Selecting this button will direct you to the dedicated page where you can manage your preferences and personal details.

03 Alternative Navigation to Settings

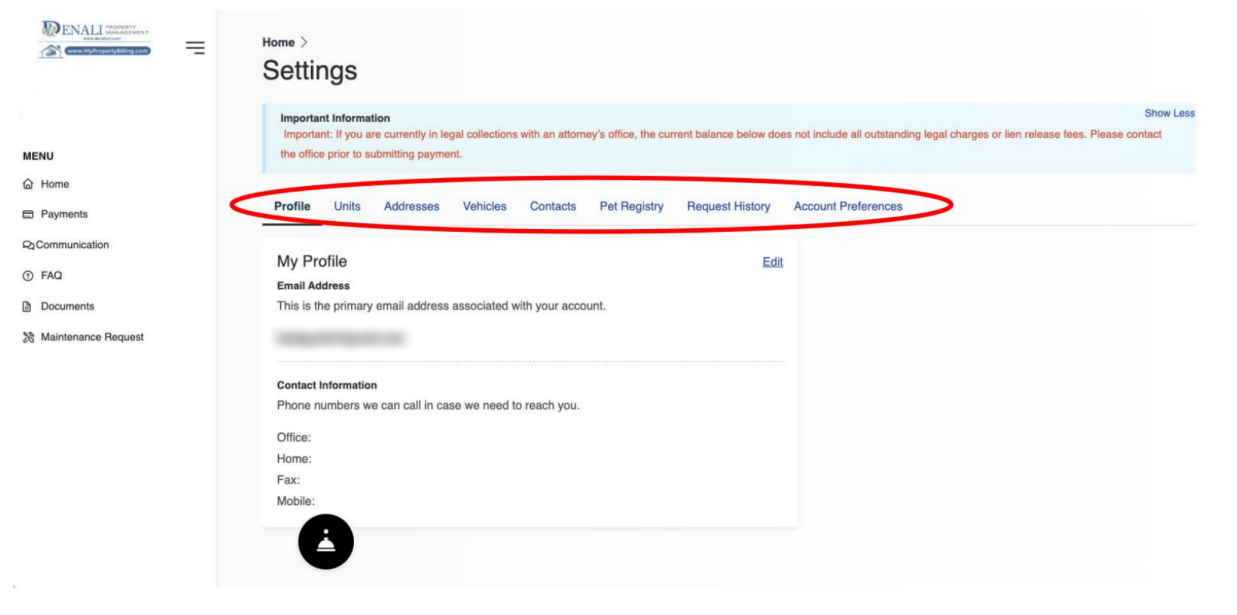

Alternatively, you can access your account settings by clicking on your name, located in the left-hand menu. This action will reveal a dropdown or sub-menu, from which you can then select the 'Settings' option.

04 Exploring Account Modification Categories

Once you've reached the settings page, you'll notice a comprehensive top menu bar. This menu organizes various categories of information you can modify, including your Profile, Units, Addresses, Vehicles, Contacts, Pet Registry, Request History, and Account Preferences. Each category allows you to update specific details, providing a centralized hub for all your personal and property-related information.

How to modify your account information

05 Adjusting Account Preferences

Within the settings, you have the flexibility to adjust a wide range of account preferences. This includes updating your display name, managing email and text message notifications, and controlling personal message permissions.
